Access your account to review the designation of the beneficiary. The prerequisites for performance are non -guarantees estimates. Review the commissions and expenses paid, including any charges associated with the transfer of your account, to see if the consolidation of your accounts could help reduce costs. The models are subject to a series of limitations. Therefore, you should regularly monitor your account and base your investment decisions on the time horizon, on risk tolerance and on the personal financial situation, not on information in the prospects for the investments considered. The investments selected with models can work differently from expected following the design of the model, inputs in the model or other factors. Current activities are assigned to activities of activities based on the Morningstar categories and commissions and charges charged In investments they are incorporated with an average commission assumption for each class of activities. The Outlookà º A® pension graph reflects the difference between the estimated annual income of the model (which corresponds to a 70% level of probability of income in simulated investment scenarios) and the objective of annual income. Morningstar and Morningstar Investment Management are not affiliated to Transamerica. Transamerica.
